Imagination is the beginning of creation...

(George Bernard Shaw)

Introducing the GenSun solar assisted temporary traffic light from Taylor Construction Plant Ltd and Solar Highways Ltd.

GenSun - Features

- *Noise free - The GenSun can be used for all applications, especially in noise sensitive areas*
- *Fuel free - The GenSun is solar powered, requiring light only in order to provide 24/7 operation*
- *Pollution free - No fumes, no toxic emissions and no contamination risks*
- *Reliability - No engine and no moving parts equals minimal maintenance and no servicing costs*
- *Utilizing LED technology within the traffic light head, the GenSun eliminates the need for replacement bulbs*
- *Be seen to go green - establish your credentials as a service provider prepared to make a difference*
