

MF-450

Recycle waste to fill and save money

The unique MF 450 mini crusher represents the future in small to medium site recycling. Capable of handling all materials, with rising transport and land fill costs and EC regulations on recycling due to be introduced a cost effective and simple solution is required, it is compact, easy to transport and can be operated by one man. It is competitively priced and represents substantial savings when compared with muck away costs and buying in crushed materials, also ideal for small waste transfer sites councils etc.

- 10-15 tonnes per hour
- 1250mm wide
- Crushers tarmac or aggregate
- Remote control tracking
- Conveyor discharge

“Keeping you working”

Specifications

Crusher Length	2400 mm
Conveyor Length	3000 mm
Width	1250 mm
Height	1850 mm
Weight	3600 kg
Output	10-15 T/hr
Jaw Size	450 x 280 mm
Output Size	10-100 mm
Fuel Consumption	3 ltr/hr
